

★ JOB PLACEMENT

Dyer Appliance Repair Academy collaborates with appliance repair companies across the country. We have an active list of service providers in need of in-home repair technicians. After completion of Dyer Appliance Repair Academy our staff will provide each student with a résumé and actively market our graduates to hiring companies in their areas.

MAKE UP TO 35-50K IN YOUR FIRST TWO YEARS

For students requiring housing please contact us for details.

"I can tell you this training was a walk, crawl, run based system, but it does require a hunger from you as a student. Dave Bird does an excellent job at making you find the solution versus simply providing you the answer."

Brad Erickson, October 2017

"An absolutely excellent Academy! The Instructor is very knowledgeable and makes learning the material fun to learn in a very relaxed, no pressure environment. Would highly recommend to anyone looking to get into the appliance repair industry."

Issac Valdespino, November 2017

BEYOND THE BASICS WITH CALLAHANS

We offer each Dyer graduate the opportunity to gain more hands on training with qualified service technicians. Callahan's Appliance is located in Frisco, TX. Contact Mike Callahan for more details. Mike@Callahansappliance.com

DYER APPLIANCE REPAIR ACADEMY
5524 Midway Road, #7
Halton City, TX 76117

2018

15
DAY

course in appliance
repair providing the

KNOWLEDGE AND SKILLS YOU NEED

to become a qualified
professional technician

"Dave Bird, the instructor, is very knowledgeable and taught the class at your pace. Plenty of hands on in the lab with numerous brands and makes/models. The ride out program during the 3rd week was very helpful, going on service calls with an appliance company put things together. I would recommend the class to people wanting to learn the appliance field."

Greg Landeche, November 2016

DYER APPLIANCE REPAIR ACADEMY

The focus of our course is to teach you theory and fundamentals on all the major appliances found in the home today. Then we'll move to the Lab where you'll receive valuable hands-on training to reinforce what you learned in class. We also offer an opportunity to ride along with experienced technicians while they perform in-home repairs.

Dave Bird
Dyer Appliance
Academy Instructor
